MERIDIAN STREET BRIDGE OVER FALL CREEK

RebuildIndy is Mayor Greg Ballard's initiative to restore deteriorating thoroughfares, residential streets, sidewalks and bridges, as well as address neighborhood drainage and flooding issues and demolish unsalvageable abandoned homes that pose a public safety threat to neighborhoods. This investment in infrastructure will address problems throughout Indianapolis.

These construction projects will create local jobs and ultimately increase public safety for neighborhoods and residents, which supports Mayor Ballard's commitment to make Indianapolis a more livable city.

PROJECT SCOPE

The Indianapolis Department of Public Works (DPW) has completed the rehabilitation of the Meridian Street Bridge over Fall Creek in Center Township.

Construction took place on the east side of the 1917-built bridge, including reconstruction of the limestone facade and concrete sidewall. The project also reset the existing limestone railing and replaced the curb, sidewalk and portions of the existing concrete arches.

Traffic was maintained on Meridian Street during the construction process with lane restrictions.

PROJECT DETAILS

PROJECT STATUS: Complete

CONSTRUCTION PERIOD: February to December 2012

PROJECT COST: \$2.5 million

DESIGN ENGINEER: Janssen & Spaans Engineering

PROJECT BENEFITS:

- Better driving conditions for commuters
- Improved safety for pedestrians
- Increased economic development opportunities
- Preservation of an historic asset

Project schedules and costs are subject to change.
